# Flora Synergy and Flora Chewable

*Potent immune bacteria opens the path to vibrant health*

## Product Details:

**Lactobacillus Sporogenes is the active probiotic in Flora Synergy.**

Some of the many unique benefits of **Flora Synergy** and **Flora Chewable** are:

- It is carried through the acidity of the stomach in a spore
  - Upon arrival in the duodenum, it germinates and multiplies
- Only produces gram positive bacteria which prevents metabolic acidosis often seen with other probiotics
- Survives antibiotics, heat and gastric juices
- Immune bacteria is the first line of defense in the immune system
- Helps to heal and seal the gut
- No refrigeration needed
- 100% non-allergenic

## Recommended Usage:

1-3 capsules 3 times daily, or as directed

1-2 wafers 2 times daily, or as directed

## Key Ingredients:

*Lactobacillus Sporogenes* — gram positive bacterial  
endospore *Fructooligosaccharide (FOS)* — food  
which helps this specific bacteria proliferate

## Synergistic Considerations:

*This versatile product complements all healing  
strategies and remedies.*
